

## Cabrillo File Format

All files must be in **standard ASCII format**.

All files must be on an MS-DOS formatted disk, 3.5-inch (720-KB or 1.44-MB); or sent via e-mail to [logs@floridaqsoparty.org](mailto:logs@floridaqsoparty.org).

The diskette label should clearly indicate the **call sign used, contest name, entry class, and date of the contest**.

The **log data file name** shall consist of the call sign and the extension ".LOG", as in, for example,

KR1R.LOG

The log file must consist of **one line of data per QSO** (no more than 72 characters wide), without headers, footers, page breaks or other non-ASCII characters.

**All QSO data must appear in each line**, aligned by columns, and must include the following:

**frequency:** in kilohertz.  
**mode:** designator such as CW, PH, etc.  
**date:** in YYYY-MM-DD format.  
**time:** 4-digit UTC without colons.  
your **call sign**.  
complete **exchange sent**.  
**call sign** of station worked.  
complete **exchange received**.

A paper **summary sheet** is required of all paper logs with a signed contest participation disclaimer.

All diskettes become the property of the FCG and are not returnable.

Sample File:

QSO: 14000 CW 1999-04-25 1254 WB4NJV	599 SAR W9BOK	599 WI
